

# Mercury in Retrograde Opt-Out Prayer

I decree that my company is not participating in the phenomena known as Mercury in retrograde. We do not recognize Mercury as a valid messenger and we neither need nor want his services. We only acknowledge the one true and living God and that we have a direct and instantaneous line for our communication with Him. Thank you Jesus for providing the way and being the ultimate messenger of the Father to humanity and giving us access to Holy Spirit.

I repent of any instance where any part of my being wanted an intermediary or messenger to God. This can include but not be limited to intercessory prayer, over-reliance on spiritual mothers and fathers, prophets, and any area of taking an easy way rather than deepen my relationship with God.

Our tech, communications, and shipping are off-limits to any natural or spiritual forces associated with this event. We cite Jeremiah 10:2 as our principle that we stand on.

I apply the blood of Jesus and cover all technology, communication and shipping involved in my company. I bind all demons on assignment against our technology in the name of Jesus. I put my business, my tech, and everything I use for messaging in God's hands for safe keeping. I take authority over every form of ungodly communication whether it be verbal, text, or software code. I call it all back to its original, God intended form and declare peace, rest, and flow over every system and process.

I declare that my company's staff will stay in alignment with God's intended plans and purposes for our lives, and that we will not shrink back from any of them. That we will stay in forward motion if that is where we are called during this time period. I ask God to seal this time and protect it from enemy impact. I ask for protection over our relationships as well, both personal and business.

My company employs the help of other people and businesses in order to do what we do. This extends to all the people involved in all the software that we use, all of our tech stack, our shipping carriers and its employees, our local internet services etc. While each individual has their own right to their spiritual path and to make their own choices, I decree that their right to participate in Mercury in retrograde shall not infringe on my right to opt out. I decree and declare that none of their tech or communications problems can negatively impact my company.

My company has contracts with each of these other businesses whose technology we use. I declare that the supremacy of the blood covenant we have with Jesus takes precedent over all other contracts and covenants that we enter into.

The above also extends to my company's customers. While we honor their spiritual freedom, when they are under our digital roof, the effects of Mercury in retrograde are suspended during their shopping, searching, finding answers to their questions, checking out, and having their products shipped. May they have a smooth process with additional insight and "aha" moments. I release angels to help them in this process since they are legitimate messengers of the one true God.

I release unity, smooth communication, forward momentum, advancement, deeper true spiritual connections and peace to anyone who comes in contact with my company. I declare that they are targeted for the kindness of God, and targeted for grace and mercy by the Kingdom of Heaven.

I request extra angelic assistance for myself and my company's staff as well for enforcing these decrees and helping us navigate this time period. I ask that our ears be cleaned out to hear Holy Spirit extra clearly and that other voices would be quieted. I declare that whatever the enemy means for evil will be turned for good.

I forbid any retaliation against my tech, communications, my company in general, my staff, business associates, and our businesses, families, pets, bank accounts, or possessions. These decrees are in effect permanently, and applied retroactively. I seal this prayer in Jesus' (our real messenger's) name.
